

FAST CASH METHOD

HOW TO MAKE \$7/HOUR ONLINE!

J O H N A L V E S

Fast Cash Method

Thanks for buying this WSO! This WSO will help you make \$7 an hour online by doing simple tasks. They are transcription tasks that are very easy to do and make between \$0.08 and \$0.12 per task. With transcription tasks, all you have to do is listen to an audio recording and then submit the information that you hear in text format. An example of transcription is the subtitles that you see on television. You are basically making money doing data entry, which is a very easy way to make money.

There are thousands of tasks available at all times that you can do to make money. I use a technique while doing these tasks that allows me to make \$7 an hour whenever I decide to do them. You will need to get approved and take a short test first. The test is pretty simple, but you will need to follow the guidelines for how to submit the audio text. Once you pass the test, you will get access to the platform. When you have access, you will be able to do transcription tasks and start making easy money online! All money that you earn can be withdrawn to PayPal in one business day!

Working with CrowdSurf

After the account creation with Work Market is done, you should have also received an email from CrowdSurf titled "Join my Talent Pool on Work Market". This is where you will take a test that you will need to pass to be able to start making money doing transcription. The test has 18 questions, and you will need to read the CrowdSurf guidelines so that you understand how you are supposed to do transcription. The guidelines cover the information that you will need to pass the test. Below is a link where you can find the guidelines. I recommend keeping the guidelines open while taking the test. If you fail the test, you will be given the answers. Take note of the answers and try the test again on another day. You can also create a new Work Market account and go through the process again.

Hello John,

Your test results are available for the following test:

CrowdSurf Transcription Assessment

Results: **Passed**

The goal should be to pass the test the first time. However, if you don't pass, take the test again on another day or create a new Work Market account and take the test again. Since, you will be given the answers, you will pass at some point. Once you pass the test, you will receive an email that says you passed. The email says "Review your test results: CrowdSurf Transcription Assessment". In the email, it says that your results are Passed. The image is above of what the email looks like. You need to get this email for your account to be created on CrowdSurf. After that, you will need to wait for an email from CrowdSurf that will give you login information. For me, the email came 6 days after I passed the test. CrowdSurf says that it may take 5-10 business days to create the account after you pass. Once you receive the email, you will be able to log in and start doing simple transcription tasks for money. Below is the email that you will receive once your account is created.

Hello,

Making money with CrowdSurf Transcription

When you log into CrowdSurf, you will be able to start making money by doing transcription tasks. Once you log in, there will be tasks available. Click on view, and you will be able to start doing work. You have to press on the play button to listen to the audio. Then you can type in the words that you hear from the audio and submit the information.

After you hit submit, you will make money. Most tasks pay between \$0.08 and \$0.12 per task. Majority of tasks get auto approved, but some will be pending for moderation. You need to make sure that you are submitting transcription text that is pretty accurate. If you start submitting spam that doesn't have anything to do with the audio, you will not be able to make money because your transcriptions will get disapproved.

There are a couple ways that you can use the platform. If you are typing into the platform, I recommend that you change the area that says "Expert: No Auto Pause." and change it to "Standard: Play for 5s, pause for 3s, rewind for 2s."

On this setting, you will make between \$4-\$5 an hour if you keep working on it at a consistent pace by typing the audio. This is still pretty good money online and some people will decide to do it like this. Since there are a lot of tasks available, you will be able to make consistent money.

However, I have also developed a technique that makes me over \$7 an hour with CrowdSurf. You will make money by talking into your computer microphone while you listen to the audio. This is the fastest way to make money with CrowdSurf.

How to Make \$7/hour Talking with CrowdSurf

For this method, you will need to have a Google Chrome browser open. It only works with Google Chrome. The setting for the CrowdSurf audio should be on "Expert: No Auto Pause."

You will need to go to this link: <https://www.google.com/intl/en/chrome/demos/speech.html>

Web Speech API Demonstration

Click on the microphone icon and begin speaking for as long as you like.

Click on the microphone on the right, and you will be able to start talking. The microphone will pick up your speech. I play the audio on CrowdSurf, and then I repeat the words into my computer microphone. It types the words automatically on Google Speech. Then, I copy and paste the words from there and submit the audio text on CrowdSurf. Sometimes, you may need to make some minor edits to the wording, but I have found that this is the fastest way to get transcription done. This makes me \$7 an hour when I use this technique. Below is a picture of some of my earnings. The money goes directly into my Work Market account, and I withdraw the earnings through PayPal on there.

Conclusion

I hope that this WSO has helped you out a lot. Fast Cash Method goes over step by step exactly what you need to do to start making \$7 an hour online whenever you want. This is one of the easiest and fastest ways to make money online that pretty much anyone can do. Many people spend years of their life trying to find a way to make money online, and they can never find something that works. It is not easy to make money online, and this is a method that is right in front of you that you can start using to make money.

\$7 an hour may be a lot of money to you or it may only be a side income. However, I can tell you for sure that there are not many people that make any money online. I have made most of my money online in the SEO industry by ranking websites and selling SEO services, and I still continue to work in that industry. However, the SEO industry requires a lot of skill, and you need to be able to work with companies to make money. This method is very simple, and you can start making money very soon.

Since I don't actively need to use this method, I decided to share it with you. However, I know that this method will always be here for me if I ever need it. Some people need \$7 an hour right now, so I hope that you take advantage of this method and start using it. You may have big dreams, and you might want to make a lot of money online. I can tell you that every dollar I ever made online came from doing work. Nothing ever came out of thin air, and you can't expect to make money online by doing no work.

Once you start making easy money with this method, it may just be what you need to actually start making your dreams come true. If you are a person that has failed a lot online trying to make money and has almost given up, this \$7 an hour fast cash method may give you the money that you need to build your online business and your future. What you decide to do with these earnings is up to you. Just realize that the money is there to be made. You will not be able to say any longer that you don't know how to make money online because the money is right here with the fast cash method. I wish you the best of luck with this method and your future with making money online.
